

Instructions for uploading images to our secure cloud for interpretation

If you have the images in DICOM file format (usually “.dcm”) then you can simply drag and drop them or the folder they are in to our secure cloud here:

[SCU HEALTH IMAGING WEB UPLOADER](#)

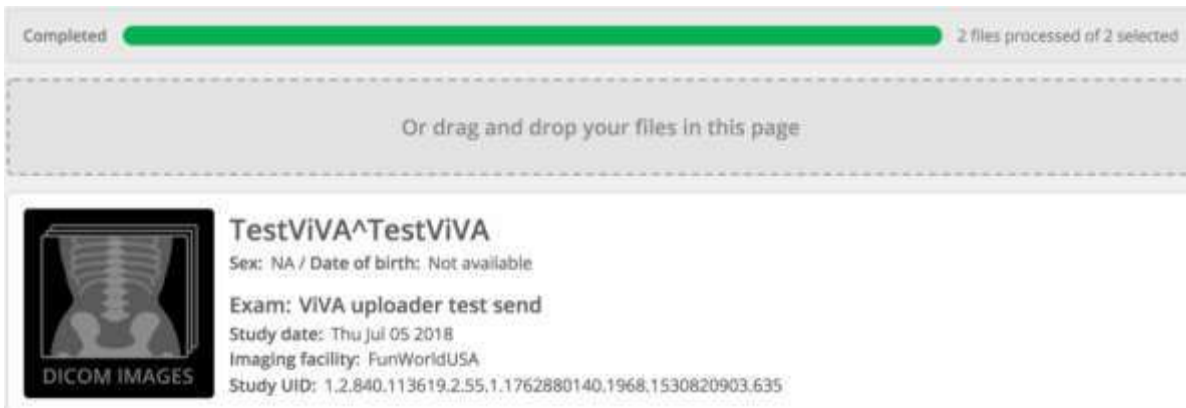

*****Please note, this site will not accept .jpg images or file types other than DICOM*****

Please email me (hectormelo@scuhs.edu) to see how we can best help you with non-DICOM images.

Once you have selected your images for upload, the “Uploading” progress bar will appear and the patient name will show up underneath.

Once the images are done uploading, the progress bar will turn green and will display “Completed” on the left.

Once, we finalized the report, you should automatically receive separate email from “ViVA Report System”, with the address: “noreply@purview.net” containing a link to download a PDF of the report. It is worth adding that address to your contacts list, so the reports do not end up in your spam folder.

If you have specific questions about the imaging, feel free to let me know and I can try to answer your questions directly in the report or otherwise. If you have any issues uploading the files, please feel free to call my office at (562) 947-8755 ext 539. Or send me an email at: hectormelo@scuhs.edu

Hector Rivera-Melo, DC, DACBR
